BRIDGESTONE
Your Journey, Our Passion

**OFF-THE-ROAD
LOADER AND DOZER
RADIAL TIRES**

THE RIGHT SOLUTION FOR EVERY APPLICATION

Loader Dozer Load Haul Dump

For all your loader and dozer radial tire needs BRIDGESTONE PROVIDES THE BEST SOLUTIONS

Our comprehensive range of industry-leading loader/dozer tires featuring proven patterns and construction deliver superior performance in all operating conditions — from soft and muddy to extremely hard rock conditions. Bridgestone will provide reduced operating cost, and higher productivity with extreme durability.

Pattern	VSW	VUT	VLT	VJT	VTS	VLTS	VSNT	VSDT	VSDL	VSDR	VSMS	VSMS2

Feature	Excellent traction, cornering and braking performance on ice and snow.	Superior traction, self-cleaning, maneuverability and performance.	High maneuverability, traction and flotation for wet, soft and muddy surfaces.	Low vibration, superior riding comfort, long life and high traction.	Low-profile design and an excellent combination of traction and stability.	Excellent traction and long life on rocky and gravel surfaces.	With deep treads ideally designed for tough loader/dozer operations.	Extra-deep, wide tread pattern assures superior cut resistance and long tread life.	Extra-deep tread for a good balance of cut resistance, traction and long tread life.	Improved wear-and-tear resistance compared to VSDL.	Smooth extra-deep tread design maximizes cut resistance.	Optimized sidewall shape to maximize side cut resistance and increase tire life compared to VSMS.
